Summary

Motivated Entry-Level Full Stack MERN Developer seeking a web development internship. Equipped with hands-on project experience in React.js, Node.js, Express.js, MongoDB, and TypeScript. Possess a strong understanding of clean architecture, system design, and API integration, including the use of AI-assisted development tools to streamline coding workflows. Eager to contribute to a professional engineering team, tackle real-world technical challenges, and rapidly adapt to production workflows

TECHNICAL SKILLS

Frontend Development : HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, React Native Redux Toolkit, Bootstrap, Tailwind CSS, Mantine UI

Backend & Databases : Node.js, Express.js, Next.js API Routes, MongoDB, Mongoose, Firebase

Tools & Workflows : Git, GitHub, Vercel Deployment, Postman (API Testing), Deployments, Axios, Fetch API, JWT Authentication, AI Tools (ChatGPT, Prompt Engineering, AI-assisted Development)

Core Concepts : State Management, Relational Schema Logic, Asynchronous JavaScript, Problem Solving

FEATURED PROJECTS

Machine Maintenance Web App

Live

- **Designed and developed** a web application to streamline client machine tracking, repair logging, and service history management.
- **Implemented features** to monitor maintenance costs and optimize equipment uptime.
- **Deployed the application** on Vercel for fast, reliable, and scalable performance.

<https://github.com/Abdullah8920/Machine-MAIntainence>

Maintain IQ

<https://github.com/Abdullah8920/MAINTAIN-IQ>

- **Designed and developed** a dynamic single-page system monitoring dashboard to track, visualize, and update system maintenance states in real-time.
- **Built serverless Next.js API Routes** to perform robust CRUD operations, efficiently loading, querying, and updating persistent state documents.
- **Maintained reactive client** interface architectures, successfully engineering loading masks and elegant exception handlers during asynchronous pipeline delay windows.
- **Modeled modular object** schemas using MongoDB Atlas to handle structured metric updates safely and ensure scale resilience

Education And Courses

Bachelor Of Cloud Computing And Information Sciences

2026 - Present

Sir Syed University of Engineering and Technology

Certified Modern Web & App Development

Karachi

Saylani Welfare International Trust
