Abdullah Mushtaq

MERN Stack Developer

abdullahansari7463@gmail.com | 03702123431

github.com/Abdullah8920 | linkedin.com/in/abdullah-ansari-2820452b0

Profile

Motivated entry-level Full Stack MERN Developer seeking a web development internship. Equipped with hands-on project experience in React.js, Node.js, Express.js, MongoDB, and TypeScript. Strong understanding of clean architecture, system design, and API integration, including the use of AI-assisted development tools to streamline coding workflows. Eager to contribute to a professional engineering team, tackle real-world technical challenges, and rapidly adapt to production workflows.

Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, React Native, Redux Toolkit, Bootstrap, Tailwind CSS, Mantine UI

Backend & Databases: Node.js, Express.js, Next.js API Routes, MongoDB, Mongoose, Firebase

Tools & Workflows: Git, GitHub, Vercel Deployment, Postman (API Testing), Axios, Fetch API, JWT Authentication, AI Tools (ChatGPT, Prompt Engineering, AI-assisted Development)

Core Concepts: State Management, Relational Schema Logic, Asynchronous JavaScript, Problem Solving

Projects

Machine Maintenance Web App GitHub | Live

- **Designed and developed** a web application to streamline client machine tracking, repair logging, and service history management.
- **Implemented features** to monitor maintenance costs and optimize equipment uptime.
- **Deployed the application** on Vercel for fast, reliable, and scalable performance.

Maintain IQ GitHub

Next.js, MongoDB Atlas

- **Designed and developed** a dynamic single-page system monitoring dashboard to track, visualize, and update system maintenance states in real-time.
- **Built serverless Next.js API Routes** to perform robust CRUD operations, efficiently loading, querying, and updating persistent state documents.
- **Maintained reactive client** interface architectures, engineering loading masks and elegant exception handlers during asynchronous pipeline delay windows.
- **Modeled modular object schemas** using MongoDB Atlas to handle structured metric updates safely and ensure scale resilience.

Education

Sir Syed University of Engineering and Technology 2026 - Present

Bachelor of Cloud Computing and Information Sciences

Certificates

- **Certified Modern Web & App Development** - Saylani Welfare International Trust
